

POS 187 6 414 B

Optical Liquid Level Sensors for Standard Temperatures

Product image

Technical parameters

Nominal Voltage Un 24 VDC	Supply Voltage Uc 12 – 30 VDC
Supply Current Ic < 25 mA	Output Current Iz ? 200 mA
Switching Frequency 35 Hz	Short-Circuit Protection Yes
Polarity Reversal Protection Yes	Maximum Operating Pressure 2 MPa
Output Type PNP nc	Housing Material Stainless Steel AISI 316L
Operating Temperature – Process -25°C...+100°C	Operating Temperature – Ambient -25°C...+80°C
Output Indicator LED	Output Type Connector M12
Protection Standard IP 67	Sensing Tip Material Borosilicate Glass

Dimensions

Use
Foamy liquids (e.g. beer, sodas),
"does not see the foam"
