

POS 287 3 412 A

Optical Liquid Level Sensors for Elevated Temperatures

Technical parameters

Nominal Voltage Un 24 VDC	Supply Voltage Uc 12 – 30 VDC
Supply Current Ic < 25 mA	Output Current Iz ? 200 mA
Switching Frequency 35 Hz	Short-Circuit Protection Yes
Polarity Reversal Protection Yes	Maximum Operating Pressure 2 MPa
Output Type NPN nc	Housing Material Stainless Steel AISI 303
Sensing Tip Material Borosilicate Glass	Operating Temperature – Process -25°C...+140°C
Operating Temperature – Ambient -25°C...+80°C	Output Indicator LED
Output Type Connector M12	Protection Standard IP 67

Use
Emulsions, e.g. cooling emulsions, milk.
